

# HARIOM SUMAN

## FULL STACK DEVELOPER

Mehsana | hariOmsuman237@gmail.com|[LinkedIn](#) | 6354945962

---

### SUMMARY

---

“I’m a full-stack developer fresher skilled in JavaScript, React, SQL/NoSQL databases, with additional exposure to Java and Python. I’ve built a few personal projects that involve both frontend and backend, and I’m focused on learning, improving, and building real-world applications.”

### PROFESSIONAL SKILLS

---

- UI/UX Design Understanding
- Team Collaboration
- Problem Solving
- Agile Learning & Adaptability

### TECHNICAL SKILLS

---

Frontend: HTML, CSS, JavaScript, React

Backend: Node.js, Express

Databases:MySQL, MongoDB

Languages: JavaScript, Java (basic), Python (basic)

Tools & Others: Git, GitHub, REST APIs, VS Code, Postman

### PROJECTS

---

#### 1.WatchWithMe

Developed a Flask + SocketIO web app that lets users watch videos together with synchronized playback, live chat, and emoji reactions. Designed to recreate the shared viewing experience for remote friends, families, and teams—bridging the gap between distance and presence.

- Demo:<https://watchwithme-1-3dyg.onrender.com/>
- Github : <https://github.com/HariOmSuman/Watchwithme/>

#### 2.QR Code Generator

Type any text or link, click a button, and instantly get a downloadable QR code you can print or share. No log-ins, no extra clicks, just quick and clean.  
It turned into a great way to sharpen my JavaScript and front-end skills.
